

ELFF 2021

Early Learning for Families (ELFF) are events hosted by schools to make early and meaningful connections with families of three to five year olds. These events are approaching quickly and our current context means once again reimagining the format of them. A team of fearless kindergarten teachers and administrators from across our District have created a menu of options for your school team to consider. They are presented using the four living inquiries of the Early Learning Framework (an invaluable resource that has been developed to guide, nurture and deepen learning for children aged 0-8, provincially - [click here](#)). Using these for inspiration, activities and resources are hyperlinked below for you to use, adapt and/or build upon.

#1

Well-Being and Belonging

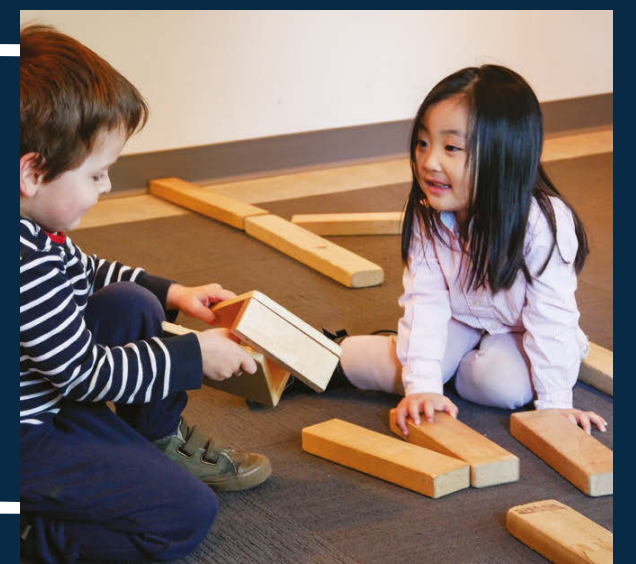

#2

Engagement With Others, Materials, and the World

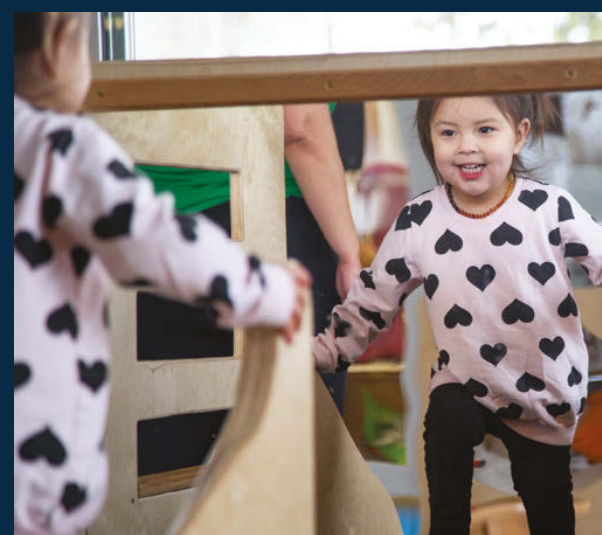

#3

Communication and Literacies

#4

Identities, Social Responsibility, and Diversity
